Steven Gardner

Mechanical Engineer for Willamette Valley Projects at U.S. Army Corps of Engineers

Responsible for supporting operation and maintenance activities of hydropower plant, fish passage systems, spillway, and other features associated with flood control dams. Utilizes expertise in mechanical engineering and studies new developments in the industry and integrates technology into existing systems. Designs modifications to power generation equipment and determines methods and techniques to integrate the modifications of existing equipment. Composes reports on plant operations, maintenance, failures and corrections relating to pumps, governors, hydraulic equipment, and other hydroelectric equipment.

Highlights from Mr. Gardner's LinkedIn profile

President's Message:

For the March program we are excited to have Steve Gardner from the Army Corps of Engineers available to talk about the Dams in Willamette Valley.

Please be sure to make your reservations with me for the March program.

We need hosts and ideas for programs for 2017. Please let me know if you would be willing to serve as a host or if you have an idea for a program.

Reminder that we are also collecting 2017 dues at the March meeting - \$20 single/\$40 couple.

Respectfully,

Jonathan Hayes
